SPONSORSHIP & EXHIBITION OPPORTUNITIES

BACKGROUND

Securing the ground is one of the most important processes in underground mining. The main objective is to mitigate the risk of rockfalls and avoid potentially severe economic and safety consequences. Shotcrete is a well-established and popular method of securing the ground. This seminar is aimed at site personnel involved in the design, implementation and quality assurance of shotcrete/fibrecrete in mining and civil engineering.

SEMINAR THEMES INCLUDE:

- Use of shotcrete in design
- Mix design
- Requirements for early re-entry
- Monitoring and quality assurance
- Dynamic support
- Shotcrete with mesh and bolts

PROMOTION

The ACG is undertaking a niche marketing campaign to promote this seminar to local and international professionals via:

- Internet marketing – promotion via the dedicated seminar website, ACG website and other mining event websites.
- Promotion of the event in the ACG newsletter that is distributed to almost 7,000 mining professionals worldwide.
- Industry association.
- Direct mail campaign – event specific flyers, registration brochures and targeted electronic mail.
- International and local exposure through the activities and support of key industry personnel.
- Regular communication to ACG mining event past delegates.
- Promotion at selected ACG and international mining events.
